LAPAROSCOPIC SURGEON
**LAPAROCARE
WORLD**

FIGLS FELLOWSHIP IN GENERAL AND LAPAROSCOPIC SURGERY

Key Features:

- Course structure of FCIS+
- Extensive 10 days hands on laparoscopic training on
- Simulators./endotrainer.
- Exposure to robotic surgery.
- Basic hands on (assisted on patients)
- Extensive teaching of laparoscopy and other surgeries.

Course endorsed by

IAELS

International associations of endo-laparoscopic surgeons

Laparocare World

FCIS Fellowship course in surgery

Key Features:

- In depth knowledge of subject
- Extensive bedside clinical teaching.
- Hands on training on harvested tissue.

>for suturing (all formats)

>Anastomosis : Single layer
:Double layer

- Observership to all the surgical procedures with chance to assist and learn
- 6 months training module (with 1 month compulsory residency)

In depth knowledge of endosuturing and practising on harvested tissue.

Basic exposure to Upper GI Endoscopy and Colonoscopy.

- Course certification by IAELS.
- *Includes all consumables, study material, PPEkit, library, lunch, snacks and tea at hospital premises.

OUR COURSES

FCIS

Fellowship course in surgery.

Course duration: 6 months

Eligibility: MBBS students/MBBS grads

FIGLS

Fellowship in general and laparoscopic surgery

Course duration: 6 months + 4 days compulsory residency

Eligibility: MBBS grads/ interns

World class endotrainer

Basic exposure to laparoscopy and its instrument design

- Skill-based knowledge on management of trauma, burns, intestinal obstruction and cancers.
- Hands on training on world-class endo trainer.

F. MAS HANDS ON TRAINING

TO BOOST YOUR MOTOR - EYE CO-ORDINATION

- LIVE OT HANDS ON
- EXTENSIVE TRAINING MODULE
- WORLD CLASS LAB WITH ENDO TRAINER
- EXTENSIVE DRILLS TO BOOST YOUR HAND - EYE CO-ORDINATION

INCLUDES

LAPAROSCOPIC SURGERY TRAINING IN (HANDS ON):

- LAPAROSCOPIC CHOLECYSTECTOMY
- LAPAROSCOPIC APPENDICECTOMY
- LAPAROSCOPIC HERNIA REPAIR (TAPP/ TEP/ IPOM)
- OTHER ADVANCED LAPAROSCOPIC SURGERIES
- EXPOSURE TO ERGONOMICS OF ROBOTICS
- HANDS ON TRAINING ON PATIENTS(ASSISTED)
- LAPAROSCOPIC TISSUE DISSECTION AND RETRIEVAL
- LAPAROSCOPIC RESECTION AND ANASTOMOSIS
- PORT PLACEMENT AND BASIC LAPAROSCOPIC ERGONOMICS
- LAPAROSCOPIC CHOLECYSTECTOMY

INCLUDES

FMAS

DURATION: 10+2 DAYS

ELIGIBILITY: SURGERY RESIDENTS
OBG-GYN RESIDENTS/PASS OUTS

91-9044856688,
